

## PRESS RELEASE

Date: 3 December 2009

### **Long Mountain transmitter group - Arqiva completes Digital Switch Over**

Arqiva confirms that the Digital Switch Over process for the Long Mountain transmitter group in Wales has been completed successfully.

Two\* public-service digital TV multiplexes are now being transmitted at high power from Long Mountain and 14 dependent relays in parts of east and central Wales: Broneirion, Carno, Castle Caereinion, Kerry, Llanbryn-mair, Llandinam, Llanfyllin, Llangadfan, Llangurig UHF, Llangynog, Llanidloes, Llanrhaeadr-ym-Mochnant, Moel y Sant and Tregynon.

Following switch-off of the BBC Two analogue signal on 4 November 2009, the remaining analogue signals for BBC One, ITV1 and S4C were switched off by 00:53 on Wednesday 3 December. The digital signal for the D3&4 multiplex entered official service at Long Mountain at 03:45, with the last of the relays completed by 14:20.

\*The BBC B service will be switched on at a later date. There are no Commercial multiplexes at Long Mountain or its dependants.

Arqiva is the transmission provider for all terrestrial TV and most radio services in the UK.

#### **About Arqiva**

Arqiva operates at the heart of the broadcast and mobile communications industry and is at the forefront of network solutions and services in an increasingly digital world. The company provides much of the infrastructure behind television, radio and wireless communications in the UK and has a growing presence in Ireland, mainland Europe and the USA. There are three business units:

**Terrestrial Broadcast** provides transmission for all UK terrestrial TV broadcasters, including the new networks being built for the Digital Switch Over. Transmission is also provided for BBC Radio and most commercial radio stations, both analogue and DAB. The company owns and operates two of the

six UK digital terrestrial TV multiplexes, enabling major media companies to bring their TV and radio services to Freeview.

**Satellite & Media** provides global communication platforms to enterprise, government and broadcast customers around the world. It owns and operates teleports at key locations including Los Angeles, Washington, London and Paris, as well as comprehensive satellite capacity, an international terrestrial fibre network and extensive media facilities. These enable Arqiva to provide world leading organisations with a comprehensive range of services to deliver their data, broadcasts and media across the globe.

**Wireless Access** provides cellular, wireless broadband, voice and data solutions for the mobile communications, public safety, local government, and commercial markets. Arqiva is the largest independent provider of radio sites in the UK and Ireland. With its own spectrum, the company can provide complete mobile communications networks including backhaul links.

Arqiva has its headquarters near Winchester and other major UK offices in London, Warwick, Buckinghamshire and Yorkshire. Major customers include the BBC, ITV, Channel 4, Five, BSkyB, Classic FM, the five UK mobile operators and the emergency services.
