Arqiva launches MCE TV onto CanalSat

- **Arqiva provides a full range of teleport services to launch new customer MCE TV onto the French CanalSat platform**

Arqiva has launched French channel MCE TV onto French DTH platform CanalSat. Arqiva provides encoding, encryption, multiplexing and uplink services, as well as the connectivity between each of these elements.

Malcolm Campbell, Commercial Director at Arqiva Satellite & Media, said: “New customers are the lifeblood of any business and we are delighted that MCE TV has chosen Arqiva to launch their channel onto the CanalSat platform. A speedy launch was made possible by our provision of a robust temporary solution which has now been replaced by a range of permanent teleport services.”

Arqiva provides trusted management and delivery of over 400 standard and high definition TV channels to over 30 international TV platforms. Arqiva has the infrastructure and experience to help rights owners, programme makers and broadcasters to create and capture content, and to manage and deliver high quality television around the world.
