

PRESS RELEASE

Date: 18 August 2010

Digital Switch Over completed for Angus transmitter group

Arqiva confirms that the Digital Switch Over process for the Angus transmitter group, serving Angus, Dundee, Perth and parts of Fife, has been completed successfully.

All six digital TV multiplexes are now being transmitted at high power from Angus, while the three public-service multiplexes are being transmitted for the first time from 22 relay sites at Auchtermuchty, Balmullo, Balnaguard, Blair Atholl, Camperdown, Carie, Crieff, Cupar, Dunkeld, Dunkeld Town, Grandtully, Kenmore, Killin HP/VP, Lindores, Lochearnhead, Methven, Perth, Pitlochry, St Fillans, Strathallan, Tay Bridge and Tummel Bridge.

Following switch-off of the BBC Two analogue signal on 4 August 2010, the remaining analogue signals for BBC One, ITV1 and Channel 4 were switched off by 00:02 on Wednesday 18 August. The digital signals for the D3&4, SDN, BBC B, Arqiva A and Arqiva B multiplexes entered official service at Angus at 05:30, with the relays completed by 14:58.

Arqiva is the transmission provider for all terrestrial TV and most radio services in the UK.

About Arqiva

Arqiva, the communications infrastructure and media services company, operates at the heart of the broadcast, satellite and mobile communications markets. The company is at the forefront of network solutions and services in the digital world. Arqiva provides much of the infrastructure behind television, radio, satellite and wireless communications in the UK and has a significant presence in Ireland, mainland Europe and the USA. There are three business units:

Terrestrial Broadcast provides transmission for all UK terrestrial TV broadcasters, including the new networks being built for the Digital Switch Over. Transmission is also provided for BBC Radio and most commercial radio stations, both analogue and DAB. The company owns and operates two of the six UK digital terrestrial TV multiplexes, enabling major media companies to bring their TV and radio services to Freeview.

Satellite & Media provides international satellite communications infrastructure, distributing video and data to enterprise, government and broadcast customers around the world. Arqiva also provides extensive media services through its playout, studios and mobile broadcasting facilities. Core assets include teleports and media hubs at key global locations including Los Angeles, Washington, London and Paris. These incorporate Arqiva's comprehensive satellite capacity and international terrestrial fibre network.

Digital Switch Over completed for Angus transmitter group

Wireless Access provides cellular, wireless broadband, voice and data solutions for the mobile communications, public safety, local government, and commercial markets. Arqiva is the largest independent provider of radio sites in the UK and Ireland. With its own spectrum, the company can provide complete mobile communications networks including backhaul links.

Arqiva has its headquarters near Winchester, with other major UK offices in London, Warwick, Buckinghamshire and Yorkshire and international offices in the USA, France and Italy. Customers include major broadcasters such as the BBC, ITV, BSkyB and the independent radio groups, major telco providers including the UK's five mobile network operators, and the emergency services.
