

Occasional Use

arqiva

Arqiva delivers the complete distribution solution, wherever and whenever it's needed, for a range of Occasional Use customers including sports, entertainment and news.

Our Occasional SNG & Flyaway offering includes state-of-the-art units ready for global deployment at short notice to bring you immediate on site connectivity to Arqiva's entire global satellite, terrestrial and internet platforms.

Owning and operating a multi award winning infrastructure of 10 international teleports, Arqiva Occasional Teleport Services provides exceptional international satellite and fibre connectivity to all of the world's major interconnects.

Occasional Global Distribution quickly and effectively redistributes your video in Standard or High Definition video from SNG or flyaway units, outside broadcasts, studios or satellite to single or multiple broadcast switching centres across the globe.

With secure encryption, 24/7 monitoring and a single team located at key international locations, Arqiva provides you with a fast, efficient and effective solution to your needs.
